

COMPACT HOP UP PLATFORM 600mm

BEFORE USE

- Read all instructions on and accompanying the platform.
- Check the maximum load indicated on the platform:

Max static load- 150KG (23.6st)

- Ensure you are fit to use the platform. Certain medical conditions, medications, alcohol or drug abuse could make the platform use unsafe.
- Ensure the platform is suitable for the task.
- Visually check the platform is not damaged and is safe to use at the start of each working day the platform is to be used.
- Remove any contamination from the ladder, such as wet paint, mud, oil or snow.
- When moving the platform ensure it is handled with care and that it is stored to prevent damage to the platform.
- Inspect the platform after purchase and before first use to confirm condition and operation of all parts.
- Do not use a damaged platform.

POSITIONING THE PLATFORM

- When positioning the platform take into account risk of collision with the ladder e.g. from pedestrians, vehicles, or doors. Secure doors (not fire exits) and windows where possible in the work area.
- Platforms shall not be positioned on slippery surfaces (such as ice, shiny surfaces or significantly contaminated surfaces).
- Identify any electrical risks in the work area, such as overhead lines or other exposed electrical equipment.
- Locking devices and legs shall be fully secured/extended before use.
- The platform shall be placed on an even, level and unmoveable base.

USING THE PLATFORM

- Do not exceed the maximum total load for this platform
- Wear suitable footwear when using the platform.
- The safe working height of the platform is calculated as the height at which a person 1.83m (6ft) tall can safely work when the ladder is used in the correct manner.
